1995	Diploma of Engineering in Electrical (Amd.), University of Indonesia

Areas of Expertise

Familiar with engineering and experienced in various machinery breakdown losses, heavy equipment, and property claims.

General Experiences

Eron graduated from Polytechnic Negeri Jakarta for his diploma degree in Electrical Engineering (D3). During that time, he gained experience at PT Pindo Deli Pulp & Paper, working as electrical engineer working on troubleshooting of electrical system on paper machines, AC & DC motor, and PLC (Programmable Logic Controller).

Eron was recruited by PT Bahtera Arthaguna Parama in 2003 as an adjuster. Whilst with PT Bahtera Arthaguna Parama he completed his Bachelor degree of engineering in electrical (ST) at University of Jayabaya in 2006, and later in 2012, he joined Axis Group as an Adjuster Engineer.

Eron has now joined the Axis Group as an Adjuster Engineer and is further developing his skills and also enhancing his engineering knowledge.

He handles various machinery breakdown losses, heavy equipment and property claims.
