General Experiences

Febri has a Bachelor degree in Electrical Engineering and law, he has also completed the examinations for qualification as an Indonesian Certified Adjuster Practitioner.

Febri graduated university in 1996 and Joined PT Dharma Nilaitama in association with Miller International Loss Adjusters and W.K. Webster as a Junior Loss Adjuster. In 2001 he was promoted to Senior Adjuster where he was responsible for investigating property damage claims particularly on electrical machinery (Generator, Transformer, etc.) and lightning loss claims.

In late 2002 Febri joined PT MIR Insurance Broker as a Senior Claim handler in which position he was responsible for controlling claims for property, machinery breakdown, CAR and Marine Cargo and providing guidance and control in the response and release of information requested by Adjusters and Insurers. He left PT MIR Insurance Broker at the beginning of January 2007 to join another Adjusting Company, PT PHP Ariecs & Richardson. In the beginning of July 2013, Febri has completed his degree in the faculty of law.

Febri has been involved in power plant related loss adjusting since 2000 and has dealt with claims for Generators on PLTGU Muara Tawar. During this time he gained considerable experience of virtually every type of Industrial, commercial and domestic claim including property, CAR/EAR, Heavy equipment and Machinery breakdown.

As a senior adjuster with PT Axis International Indonesia, his skill and experience supports the Axis portfolios in Indonesia and the Asia Pacific Region and he is a key member of the technical adjusting team.
